

## GLAUCOMA

Glaucoma is a potentially sight threatening disease that does not have symptoms in the early stages. Annual eye examinations that include screening for glaucoma are important and part of the services Eye Surgical & Medical Associates offer to their patients. If glaucoma is detected the doctors can prescribe different treatment options. Treatment options are:

- Medications that work by increasing the flow of fluid out of the eye, helping to lower the intraocular pressure (IOP).
- In-office laser treatment that can effectively reduce the intraocular pressure (IOP) for most patients. For laser treatment our doctors use Selective Laser Trabeculoplasty (SLT). The SLT is a safe and simple in-office treatment.
- Surgery may become a treatment option if non-surgical methods fail to lower intraocular pressure (IOP). Our doctors can provide surgical consultation and services.

### MEET YOUR DOCTORS

Dr. Michael Henry graduated from Sanger High School and obtained a degree in Physiology from the University of California at Davis. After post-graduate work at Georgetown University he earned his medical degree from Penn State College of Medicine, graduating with honors. Dr. Henry's ophthalmology training was completed at Vanderbilt Eye Institute in Nashville, Tennessee, followed by a fellowship in oculoplastic surgery and neuro-ophthalmology in Detroit, Michigan. While Dr. Henry is trained in comprehensive ophthalmology, he specializes in reconstructive/cosmetic ocular surgery and treating neuro-ophthalmic conditions. Along with traditional surgical modalities, he is well versed in the use of cosmetic Botox®, Restylane®, Juvéderm®, Radiesse®, and laser technology for facial rejuvenation. Dr. Henry returned to the Central Valley with his wife and their two children. The majority of his family still resides in Sanger. Dr. Henry enjoys snow skiing, golf, and sailing.

Dr. Boone, a native Visalian, joined Eye Surgical & Medical Associates in 1996. He attended Mt. Whitney High School and College of the Sequoias, and completed his undergraduate degree in Biological Sciences at the University of California, Santa Barbara. Dr. Boone attended medical school at the University of Southern California, graduating in 1992. While attending USC, Dr. Boone met a fellow medical student who later became his wife, Dr. Andrea Boone, a Visalia OB-GYN.

Dr. Barry R. Smith was born in Lindsay and attended Lindsay High School. After receiving a degree in Business Administration at the University of Southern California, he earned his Medical Degree from the University of California, Irvine School of Medicine. Dr. Smith completed his training with an Internship in Internal Medicine at Long Beach VA Medical Center, followed by residency training in Ophthalmology at the University of California Irvine. He then completed a Fellowship at the Massachusetts Eye and Ear Infirmary, Harvard Medical School in oculoplastic surgery.

Dr. Smith returned to California's Central Valley in 1985 and opened his practice. After eleven years of solo practice, he established Eye Surgical and Medical Associates in 1996 and joined forces with associates Luke Bianco M.D., Michael Boone M.D., Allen Denison O.D., Janice Tharp A.B.O., and most recently Michael Henry M.D.
